**Responses to the questions
procedure no. SEMA/77/PR142493/2026 for the purchase and delivery of the reference product
OZEMPIC**

In connection with the implementation of the project titled “*Development and advancement of an innovative solution – a generic drug from the GLP-1 receptor agonist group for the treatment of type 2 diabetes*”, financed from the state budget by the Medical Research Agency, Zakłady Farmaceutyczne Polpharma S.A. informs that questions have been submitted regarding the request for quotation.

Below we provide the content of the questions along with the responses.

Question -1

I have a question regarding your Ozempic tender as there are so many presentations around.

Ozempic 1mg in Germany:

Ozempic 1mg 2,68mg/ml (8mg) ILO 1x3ml

EU/1/17/1251/015

In other countries there are Ozempic 1mg versions with

EU/1/17/1251/005

Ozempic 1mg 1,34mg/ml (4mg) ILO 1x3ml

These are both called Ozempic 1mg. Are both ok for you?

Ozempic 0,5mg is available in Germany as below:

19810434	EU/1/17/1251/012	DE Ozempic 0,5mg 0,68mg/ml (2mg) ILO 1x3ml
19810440	EU/1/17/1251/013	DE Ozempic 0,5mg 0,68mg/ml (2mg) ILO 3x3ml

Answer:

Only those presentations with a concentration of 1.34 mg/ml are accepted.
